Final Action on Merits Status of the Application

Claims 3 and 4 are pending and are rejected. No claim is allowed.

Claims 1 and 2 are canceled.

Applicant's response and request for re-consideration, filed in paper no. 22, dated 4/4/01 is hereby acknowledged. Applicant's arguments were fully considered but are not found persuasive. Claims 3 and 4 are entered however, amendment in specification by inserting a the synthetic scheme on page 32 is not entered. It constitutes new matter. Since the criticality of the invention is the difference in configuration the amendment in specification will not be entered. The compound of example is 20S but the scheme was not in the original specification.

Claim 3 rejected under 35 U.S.C. 103(a) as being unpatentable over Miyamoto et al. (US Patent 5,877,168) and claim 4 rejected under 35 U.S.C. 103(a) as being unpatentable over Trost M. Barry et al. (J. Am. Chem. Soc., Vol. 114, No. 25, (1992), pages 9836-45) is maintained.

The arguments and reasoning is confusing it is not clear what has been accomplished by the provided results. See MPEP Application/Control Number: 09/214,155

Art Unit: 1616

716.02(e). The concentration of each compound compared is not the same.

1. Claims 3 and 4 provisionally stand rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 3 and 4 of copending Application No. 09/068219. Although the conflicting claims are not identical, they are not patentably distinct from each other.

Applicant's copending application 09/214,155 contains the same invention as claimed in this instant application 09/068,219. In the instant applications applicants are claiming 20-S compounds whereas in 09/068,219 the compound with 20-R are claimed. These compounds are considered obvious over the other.

This is a <u>provisional</u> obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Conclusion

2. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of

Art Unit: 1616

the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Telephone Inquiry Contacts

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sabiha N. Qazi, whose telephone number is (703) 305-3910. The examiner can normally be reached on Monday through Friday from 8 a.m. to 6 p.m. The fax phone number for this Group is (703) 308-4556. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-1235.
